

Indoor Cameras

MOBOTIX v25

6MP Indoor Camera

The new v25 camera offers as the first MOBOTIX vandalism indoor camera all out-standing MOBOTIX features. In addition to the standard lens options there is an on-wall audio kit with the suitable vandalism sets.

Technical Specifications

- All Inclusive

A complete standalone video surveillance system, including SD card or NAS event recording, alarming, professional video management (VMS) and video analysis functions like heat map and object statistics is available. The v25 body with MOBOTIX 6MP Moonlight day or night sensor technology is compatible with all standard lens options including the new 103° lens to cover a complete room without any blind spots.

- Easy Installation

Like all 6MP Indoor models (I25, c25 and p25), the v25 can also be easily installed within minutes. V25 supports all standard lenses to ensure always the perfect solution for any indoor environment. Installed either in ceiling- or wall mount positions, the v25 can be adjusted in both directions, horizontally and vertically providing always the ideal viewing angle.

- Perfect Protection

The new v25 model will be supported with two vandalism kits including a stainless steel protection ring and reinforced dome cover. The new vandalism kits provide complete case protection up to IK10 of the v25 either for the standard v25 or equipped with the additional on-wall audio kit.

- Easy to Install

The light-sensitive HD premium lenses can be easily mounted on any body using the included red lens wrench.

For more detailed information please see attachments under the product on the website.
